## ABOUT ME

I am a software developer with experience in building dynamic web applications and websites. With a background in full-stack development, I'm proficient in frontend and backend technologies. My work spans from custom web solutions to high-performance landing pages, focused on both functionality and user engagement.

## WORK EXPERIENCES

AUG 2024 - MAY 2025

*Inriver PH*

### Software Developer

Designed, developed, and maintained scalable web applications using Vue.js for frontend and Node.js and Laravel for backend services. Built and integrated RESTful APIs and third-party services to streamline workflows and ensure data manipulation efficiency. Managed CouchDB, MySQL, and MongoDB databases, prioritizing data consistency and security.

DEC 2023 - JULY 2024

*Self-Employed*

### Freelance Web Developer

Delivered web applications using Laravel and Blade templating engine, focusing on clean architecture, responsive UI, and efficient backend logic tailored to client requirements.

MAY 2023 - NOV 2023

*Infosoft Studio*

### OJT & Front-End Developer

Engineered scalable web interfaces using Vue.js, Vuetify, and Nuxt.js with a focus on user experience. Created detailed project documentation and delivered client presentations to support front-end development efforts.

MAY 2022 - MAY 2023

*Twin Rams Media*

### WordPress & Shopify Developer

Built and maintained WordPress and Shopify websites. Integrated third-party APIs and implemented automation features to enhance site performance and extend core functionalities.

JAN 2020 - MAY 2022

*The Dream Team  
Digital Marketing*

### WordPress & SEO Specialist

Managed WordPress websites and conducted SEO audits to resolve ranking issues. Executed on-page SEO strategies, monitored performance with Google Analytics and Search Console, and collaborated with content creators to produce search-optimized materials.
